WEF Orders Govt’s To BAN The Bible and Issue ‘Fact-Checked’ Version Without God

the population is growing rapidly. In a brand new, comprehensive study (as of June 2023), presented by Steve Kirsch to the Pennsylvania State Senate, it was calculated that for Amish children, who are strictly 100 percent not vaccinated (fully unvaccinated), typical chronic conditions barely exist, if any at all.

These chronic conditions, also called preventable diseases and disorders, that nearly many vaccinated children and swaths of Americans suffer from, include auto-immune disease, heart disease, diabetes, asthma, ADHD, arthritis, cancer, and of course... wait for it... **autism (think ASD and Asperger's Syndrome)**.

Expert panelists testified how healthy Amish children are compared to vaccinated American children

Maybe scaring people off vaccines is a good thing, for all those pro-jab-fanatics who think every natural health advocate is a "conspiracy theorist" who spreads disease and disorder by talking about dirty vaccines, vaccine injuries and vaccine-induced deaths. During testimony, expert health advocates shared WHY there's never been any reports published regarding the **health of Amish children** in general, saying "After decades of studying the Amish, there's no report because the report would be devastating to the narrative. It would show that the CDC has been harming the public for decades and saying nothing

vaccines, including the COVID-19 **gene-mutating jabs**. Speaking of the pandemic, the Amish did NOT lock down, they did NOT put on bacteria-breeding masks, and they most certainly did NOT "vaccinate" for the Wuhan Lab Flu. They ignored every single CDC and Fauci-propagandized mandate and protocol, including the deadly clot shots (because they knew better than to get injected with millions of **toxic, sticky spike proteins** and graphite nanoparticles).

Guess what happened? The Amish had a survival rate of COVID 90 times higher than the rest of America. Nobody wants to talk about this, except natural health advocates. If you post anything about it on social media, you immediately get banned, blacklisted and labeled "misinformation" or "disinformation."

Why is it so important to AVOID vaccines like the plague? Just take a look at all the **insane ingredients** used in vaccines, including preservatives, emulsifiers, adjuvants, genetically modified bacteria, mutated viruses and sterility-causing chemicals. This is all listed right out in the open. No human should ever have any of this injected into their blood and muscle tissue, bypassing the normal defensive shields of the body, including the skin, lungs and digestive tract.

These toxic, sometimes lethal ingredients include mercury (high doses in the multi-dose flu jab), human blood (albumin from abortions), deadly pig viruses called circovirus (in Rotateguard Rotavirus jabs), eagle blood, dog blood, infected green monkey kidney cells, sucralose, monosodium glutamate (MSG), cow
